

# Bear All Contracting

Bear-All Contracting is a owner operator Pinjarra based earthmoving business. Servicing the residential, commercial and civil sectors any where in western Australia. Their fleet is made up of a mini excavator, bobcat, tipper and roller.

Here are some reviews from some of Brad's very happy customers.

"We own a concrete company, Brad does a lot of earthworks for us. He gets the levels right every time and always fits us in when we need urgent jobs done. Very well priced and always on time."

**David A - North Dandalup**

"I can highly recommend this business. Brad was professional and very good to work with. His attention to detail and the quality of the finish. We had challenging site levels, limestone boulders and neighbouring properties to manage for our subdivision. Excellent communication and consultation throughout the project including redoing some section to manage issues with soil volumes and adjoining lot levels. Brad worked to time and budget and took on extra tasks without a hitch whilst also being thoughtful regarding dust levels to adjoining properties. I would definitely use Bear-all Contracting again."

**KW - Mandurah**

"Great service and advice. Was on time and professional."

**Shelley A - Secret Harbour**

"I will be recommending Brad to all my friends and neighbours. He's professional, reliable, organised and does a great job. . Thanks Brad."

**Rebecca Christensen**

## Testimonial

'Big thanks to Brad for our new driveway and shed pad. Fantastic work and reasonably priced. Would highly recommend him for any and all future projects.'
